Hamburg, 24 May 2022 – Three years after its founding and continuous growth in both operational management and real estate assets under management, Five Quarters Real Estate AG has newly formed its Supervisory Board. Sebastian H. Lohmer – a long-time companion of the management – has been the new Deputy Chairman of the Supervisory Board since 19 May.

Sebastian H. Lohmer is an independent consultant for special tasks and projects in the field of real estate investment. Until this spring, he was Managing Director of three capital management companies at one of the largest European real estate investment managers and was responsible for real estate funds with around EUR 30 billion, which were managed by a total of almost 200 employees. Since 2013, he has made a significant contribution to the considerable growth of the companies. He had been dedicated to the regulated fund business for institutional investors since 2006, when he joined the management of a Munich-based AIFM with an international insurance background.

"If anyone has earned his stripes in our industry, it is Sebastian," says a delighted Georg zu Stolberg, one of the founders of Five Quarters Real Estate, who in one of his previous professional positions co-managed an AIFM in Hamburg with Sebastian H. Lohmer. "Sebastian H. Lohmer and I were previously in charge of fund management at another address, and there is nothing he has not yet seen in our industry. His wealth of experience and reputation with investors and product providers is a huge benefit to us."

"For me, Five Quarters Real Estate is the answer in these stormy times to meet the needs of institutional investors with creative approaches, quality, speed and reliability," comments Sebastian H. Lohmer on joining the company's supervisory board. He adds: "From many years of working together, I know that the management puts the interests of the clients above everything else. My decision to join the supervisory body has greatly promoted this. I look forward to the new role."

Since the beginning of its market entry, Five Quarters Real Estate has also seen the Supervisory Board as a source of advice and challenge to the operational management. This is precisely why, with Claudia Meier as the former head of treasury at a large savings bank, Arwed Fischer as the former CFO of a large investment company and now Sebastian H. Lohmer, all the key areas of institutional real estate management are covered. With the arrival of Sebastian H. Lohmer, Arwed Fischer simultaneously takes over as Chairman of the Supervisory Board.
